***\*\*Precision Moves the "Uglier" Freight That Most Carriers Won't Touch.***

Precision Air Cargo offers a service...not a system. With our variety of options, we'll meet all your delivery deadlines regardless of your industry or type of freight. We are dedicated to keeping our customers informed about the status of their shipment; offering several shipping options that will get the freight delivered on time at a fair and reasonable price. Our team is available when you need us - 24 hours a day, 7 days a week. We can service any destination in the 48 contiguous United States, Alaska, Hawaii, and Canada.

DISCOVER THE PRECISION DIFFERENCE

## HOT SHOT/EXPEDITED TRUCKING

"I am a Senior Regional Manager for a local telecommunications company. Our staging facility is responsible for the shipping and receiving needs for a five state area in the Mountain Region. These states are Colorado, Utah, Idaho, Montana & Wyoming. We have shipping needs to any or all of these 5 States on a daily basis. As you can imagine covering this large of a region daily poses numerous challenges that we rely on a dependable freight company. The company we have been doing business with for going on 10 years now is Precision Air Cargo (PAC). The service they offer is second to none, the customer service provided goes beyond even that. We have had a great relationship in every aspect with Precision Air. It seems like any challenges we continually throw at them, their "can do" attitude not only takes care of these challenges but the PAC team completes them in a way that puts our team at ease. We know PAC will do what they promise. I have known almost 100% of the staff they employ as it appears there is very little turn over and whenever you call them they know who you are. In this day and age that is very welcoming. We have also worked with PAC and our various locations throughout North America to help with shipping equipment between staging facilities. We deal in very high dollar equipment on a daily basis and the precautions PAC uses to ensure our shipment's arrive on time and are handled safely helps put my mind at ease. In dosing I would personally endorse Precision Air Cargo, their entire corporation and team. I am glad and available to be contacted should further questions be needed."

~ M.G. - Telecommunications Company

## HOT SHOT / SAME DAY

"The team at Precision Air is by far the most personable and professional group of expeditors that I have the pleasure of working with. I receive real time updates of all my daily and expedited shipments by a staff that strives to meet our time sensitive shipments. From advising possible weather delays to quoting hot shot services, this team consistently delivers competitive pricing with friendly service. Every time I call in I speak directly with someone that knows me by name and treats me as a number one priority, I certainly haven't found service like that anywhere else. I highly recommend Precision Air Cargo!" ~ V.P. - Caterpillar Dealer

## HOT SHOT

"As manager of a logistics department, I am always working on finding a good mix of adequate customer service, efficiency, reliability, and reasonable pricing from carriers. Most often I find I have to rate these qualities in order of importance, and sacrifice one for another when choosing the best option. With Precision Air, I get all of these necessary qualities with the added bonus of friendly and helpful customer service.

As part of my job, I still continue to check other providers and rate them against Precision Air, but in the end, Precision honestly just has no equal. All in all, Precision delivers exactly the type of quality customer service that I expect from myself and the people I manage, and I believe they set the standard in their industry. I honestly couldn't be happier with the service they provide." ~ T.W. - Midwest Foundry

## HOT SHOT

"We are very happy with the services Precision Air Cargo provides. Over the years Precision Air Cargo has been our number one choice for shipping parts and components because of the fast, friendly, and accurate service your team provides. When our customers need a part, generally it is an emergency situation where time is very critical, and your shipments arrive quickly with good communication. Thank you again for all of the hard work you guys do, it is greatly appreciated." ~ R.C. - Caterpillar Dealer

## NEXT DAY

"When I'm in a crunch and I need something big moved fast, Precision does all the hard work. Making it so easy I don't have to think of anything."

~ T.L. Major Colorado Aggregate Supplier

## NEXT DAY / FAST TRUCK

"The success of your operation is one of the key reasons why I personally had switched from a competitor to Precision Air Cargo about 5 years ago and it's one of the primary reasons for my loyalty to your company. As I have told Mark, in the mining business, reputation is key and I am one of your biggest "fans" from that perspective." ~ L.S. - Hitachi Dealer

## WHEN TO CALL PRECISION AIR CARGO:

**SAME DAY:** Next available flight from origin to destination. Our premium service of shipments of a critical nature.

**NEXT DAY:** Our highly reliable service option for heavier pieces of freight you need delivered the next day.

**HOT SHOT:** A dedicated vehicle from origin to destination. Especially for shipments to remote locations where airfreight service is not available.

**EXPEDITED TRUCKING:** We'll locate the right truck for your individual needs including 48' and 53' dry vans, 48' flatbeds and lowboys.

**FAST TRUCK LTL:** Ask about our cost effective expediting options. Faster than your average LTL, (with several terminal stops), we move your freight straight from airport to airport with final mile delivery.

**AIR CHARTER:** Door to door air charter solutions from Turbo Props to Jumbo Jets, including the Antonov AN-124.
